SOVIET JOURNAL OF COMMUNICATIONS TECHNOLOGY & ELECTRONICS

CONTENTS 1988

Number 1

	English Page	Russian Page
V.M. Shlyakhin: Probability Models of Non-Rayleigh Fluctuations of Radar Signals (A Review)	1	1793
D.I. Butorin, N.A. Martynov and P.Ya. Ufimtsev: Asymptotic Expressions for the Elementary Edge Wave	17	1818
V.P. Lyapin, M.B. Manuilov and G.P. Sinyavskiy: Diffraction of H Waves in a Rectangular Waveguide with Extended Irises	26	1828
G.G. Karapetyan: Radiation of Magnetostatic Waves in a Planar Waveguide	34	1837
V.S. Kolesnikov, V.P. Modenov, Yu.A. Pirogov and A.G. Sveshnikov: Resonant Diffraction of the H_{10}-Mode by a Dielectric Inhomogeneity in the H-Plane of a Waveguide	38	1841
I.P. Bolotova, N.N. Voytovich, A.I. Rovenchak and Yu.V. Semenyuk: Calculation of the Internal Boundary of a Resonant Antenna from a Known External Boundary and the Distribution of Its Transparency	44	1848
V.F. Babyukov: A Generalized Method of Separation of Variables in Diffraction Problems and Its Analogues	49	1853
I.V. Barskiy, O.G. Vendik, I.G. Mironenko and G.S. Khizha: Equivalent Admittance of Irises in a Conducting Screen and of an Array of Conducing Strips, Placed at the Boundary Between Dielectric Layers	57	1863
Ye.P. Ponomarev: Use of Variational Principles for the Synthesis of Nonlinear Models for Markovian Sequences	65	1872
A.Ya. Kalyuzhnyy, L.G. Krasnyy and V.I. Khavilo: Noise Immunity and Resolution Capability of Ranked Detectors at the Outputs of Antenna Elements	69	1877
A.M. Vagapov: Canonical Representation of the Lower Information Boundary for the Bayesian Risk of Recognizing Two Objects	78	1887
V.S. Yefimenko and V.N. Kharisov: Adaptive Space-Time Filtering in Multichannel Reception	83	1893
Yu.P. Kalmykov and S.V. Titov: The Quantum Dipole Autocorrelation Function of a Free-Rotation Model	91	1902
B.S. Kerner, V.V. Osipov and M.N. Shneyder: Formation of Striations in a High-Frequency Gas Discharge with an Inhomogeneity	97	1909
G.A. Leonov and A.V. Morozov: On the Global Stability of Stationary Oscillation in Masers	102	1915
Ye.A. Dynin: Analytical Approach to the Calculation of the Integral Characteristics of Emission Electron-Optical Systems	109	1922
Ye.K. Mayorova and S.A. Trushkin: Use of the Method of Vertical Atmospheric Profiles on Ratan-600	117	1930
N.A. Simonov: Optimization of the Coupling of Superconducting Thin-Film Interferometers to a Dielectric Resonator	124	1938
Yu.V. Arkusha, A.A. Drogachenko and E.D. Prokhorov: Effect of Voltage Waveform on the Energy Characteristics of Short Gunn Diodes	132	1947
M.A. Kuznetsova: Effect of Surface States at a Heterojunction Boundary on the Characteristics of an Avalanche Photodiode	139	1954
V.S. Boldasov and A.I. Kuz'michev: Velocity Distribution of Fast Heavy Particles in a Gas Diode with an Anode Emitter of Ions	145	1960

	English Page	Russian Page
BRIEF COMMUNICATIONS		
A.G. Kovalenko and V.P. Shestopalov: Effect of a Shear-Type Inhomogeneity on Losses in a Cylindrical Slot Line	151	1967
V.M. Pavlov: Certain Features of the Dispersion Characteristic of a Circular Waveguide, Loaded by Radial Pins	154	1970
S.V. Stoyanov and V.V. Shevchenko: Effective Parameters of Quasidielectrics	156	1973
I.V. Krutsenko, G.A. Melkov and S.A. Ukhanov: Effect of Magnetic Pin on Excitation of Magnetostatic Waves in Thin Ferromagnetic Films	159	1976
V.M. Dashenkov and I.G. Yur'yevich: Calculation of Diffraction Distortions in Surface Acoustic Wave Filters Using the Method of an Expansion in Terms of the Derivative of the Frequency Characteristic	160	1977
V.A. Kochetkov and A.M. Siz'min: Receiver for Detection of Nongaussian Signals	163	1981
A.G. Budakov, G.A. Skorospelov and A.I. Timoshenko: Relationship Between the Correlation-Time Characteristics of Radio Signals, Scattered by Multiple Objects, and the Depolarizing Properties of the Scatterers	166	1983
M.P. Kruchek and O.L. Sokolov: Algorithm for Predicting the Location of a Moving Point on the Basis of an Analysis of the Frequency-Time Spectrum of Its Noise Radiation	168	1986
G.S. Mikolaymis and V.P. Palenskis: Depression of the Magnetic Reversal Noise of the 71 KNSR-A Amorphous Alloy by the Action of a Static Mechanical Stress	171	1989
G.Ye. Zil'berman, L.F. Kupchenko, A.A. Bykov, G.F. Goltvyanskaya and V.Yu. Vdovenkov: New Bragg Angles in Optically Active Crystals	174	1993
V.A. Vanke and A.V. Konnov: Slow Waves in a Circular Waveguide with a Double Helical Groove	175	1994
G.I. Rozenman, V.A. Bodyagin, Yu.L. Chepelev and L.Ye. Isakova: Electron Emitter Employing a Ferroelectric and Having an Adjustable Energy Spectrum	178	1997
V.N. Bogomolov, I.B. Vendik, V.V. Yesipov, A.I. Zadorozhnyy and T.M. Pavlova: Detection of Millimeter Radiation by Cluster Crystals	180	2000
V.D. Ivanenko and V.V. Shchetinin: On the Question of the Accuracy of Light Intensity Measurement by Charge Accumulation Method	183	2002
V.P. Vokhmin and I.B. Yakovkin: Effect of Dispersion of Surface Acoustic Waves on the Temperature Stability of Oscillator Frequency	184	2004

Number 2

N.A. Armand, O.I. Yakovlev, V.A. Filonenko, V.A. Grishmanovskiy, Ye.P. Molotov, Ye.D. Tel'pukhovskiy, V.P. Yakubov, A.I. Yefimov, O.M. Korsak, A.S. Vyshlov, V.M. Rasmanov, and N.A. Simakova: Long-Baseline Interferometry with the Venera Spaceprobes	1	2017
A.I. Yefimov, O.I. Yakovlev, S.N. Rubtsov, A.I. Kucheryavenkov, Ye.P. Molotov, V.I. Rogal'skiy, V.P. Yakubov, A.S. Kaftonov, and R.S. Khazheyev: Time Spectra of Amplitude Fluctuations of Centimeter and Decimeter Radio Waves from the Venera-15 and -16 Probes with Transillumination of the Circumsolar Plasma	7	2025
O.P. Frolov and V.G. Yampol'skiy: Model of the Temporal Variation of a Signal on Long-Range Tropospheric Propagation Paths	14	2033
L.T. Remizov, A.G. Paskual' and I.V. Oleynikova: Characteristics of Impulse VLF Atmospheric Radio Noise Near a Thunderstorm	20	2038
M.Ya. Mints and Ye.D. Prilepskiy: Optimization of the Radiation Power Concentration Factor of a Linear Antenna with a Maximally Flat Radiation Pattern	27	2046
I.I. Postnikov: Modes of the Natural Vibrations of High-Frequency Piezoelectric Resonators	33	2052
A.A. Kirilenko, L.A. Rud' and V.I. Tkachenko: Mode Conversion by Corner Nonuniformities in Rectangular Waveguides	41	2060
V.M. Pavlov: The Dispersion Equation of a Slow-Wave System of the "Double-Row Posts in a Circular Waveguide" Type	48	2068

	English Page	Russian Page
I.M. Braver, Kh.L. Garb, P.Sh. Fridberg and I.M. Yakover: Influence of Edge Effects on Power Attenuation in a Planar Waveguide with a Strip of Resistive Film	53	2073
N.P. Zhuk and O.A. Tret'yakov: Equivalent Impedance of a Rough Interface	58	2079
K.I. Livshits: Adaptive Detection of an Unknown Signal Using a Piecewise-Linear Approximation	67	2089
S.A. Galun: Effectiveness of the Estimation of the Time Position of a Random Pulsed Signal with an Unknown Modulating Function	75	2096
V.A. Shul'gin and V.N. Gun'kin: Integral Sampling in an Electrooptic Analog-to-Digital Converter	80	2101
V.P. Afanas'yev and S.B. Shestak: Asymptotically Optimal Algorithms for Signal Discrimination on a Background of Correlated Noise and a Quasideterministic Interfering Signal	86	2108
A.I. Perov: Quasioptimal Analog/Discrete Filtering of Pulsed Signals with Bunching	94	2117
A.K. Morozov: Digital Data Transmission Over a Stationary Stochastic Channel with Uncorrelated Propagation Paths Using Recursive Spread-Spectrum Signals	100	2123
M.A. Bykhovskiy: The Effect of Interference on Locking Processes in a Phase-Lock Loop System	107	2131
V.A. Korado: Detection Characteristics of Signals Masked by Interference with Unknown Correlation Matrix	116	2141
V.A. Korado: Multichannel Detection of Quasideterministic Signals on a Background of Interference with an Unknown Interchannel Correlation Matrix for a Small Learning Sample Size	124	2150
S.L. Portnoy, Yu.P. Pyatoshin and V.A. Tuzikov: Analysis of the Efficiency of Signal-Code Constructions, Matched to 4-Position Keying	131	2157
S.V. Blagodarov and O.O. Silichev: Dynamics of the Transverse Structure of a Giant Laser Radiation Pulse	138	2164
A.D. Kopenkin, A.V. Korzhenevskiy and V.A. Cherepenin: Interaction of an Electron Beam with Electromagnetic Radiation in Crossed Electric and Magnetic Fields of Similar Magnitude	144	2172
Yu.I. Aleksakhin: Synthesis of Sources of Brillouin Beams with Compensated Aberrations	149	2178
P.B. Rabkin and V.A. Korsmik: Nonisothermal Model of the Turn-On Process of p-n-p-n Structures in the Transient Stage Taking Auger Recombination Effects into Account	158	2187
A.A. Abramov, I.N. Gorbatyy and V.A. Tkachev: Calculation of the Resorption Time of the Accumulated Charge of a p-i-n Diode when It is Switched from the Forward- to the Reverse-Biased State	164	2193
O.N. Azarova, M.A. Zav'yalov, L.A. Neganova and V.N. Tskhay: A Bipolar Diode with a Plasma Anode	171	2200
BRIEF COMMUNICATIONS		
A.S. Rudnitskiy and A.P. Khapalyuk: Exact Solution of Wave Equation in a Tetrahedron with Impedance Boundary Conditions	177	2207
B.G. Klevitskiy and I.P. Korshunov: Determination of Birefringence in Multimode Lightguides from Measurements of the Degree of Polarization of the Output Field	180	2209

Number 3

M.P. Gordin, A.V. Sokolov, and G.M. Strelkov: Numerical Simulation of the Propagation of Powerful Laser Beams in the Atmosphere	1	2242
O.I. Sukharevskiy: The Generalized Lorentz Lemma and Integral Representations of the Solutions of Some Problems in Electrodynamics	12	2255
A.I. Nosich, A.Ye. Svezhentsev, and V.P. Shestopalov: Electrodynamic Analysis of the Discrete Spectrum of the Characteristic Modes of a Partially Screened Dielectric Rod	18	2262
M.S. Bobrovnikov and V.V. Fisanov: Diffraction of Plane Waves by an Impedance Wedge in a Uniaxial Medium	27	2273

	English Page	Russian Page
I.M. Braver: Acceleration of the Convergence of Double Series for Green's Function of the Helmholtz Equation in Polar Coordinates	31	2278
A.F. Chaplin and M.D. Buchatskiy: Constructive Synthesis of a Cylindrical Array of Passive Dipoles	37	2285
M.V. Smelov: Experimental Investigation of the Effect of the Shapes of the Ferrite Waveguide and Exciters on the Propagation of Magnetostatic Waves	41	2290
A.V. Vashkovskiy, K.V. Grechushkin, A.V. Stal'makhov, and V.A. Tyulyukin: Diffraction Phenomena Accompanying the Propagation of Limited Wave Beams of Volume Magnetostatic Waves	46	2295
S.A. Zaytsev, V.N. Kravtsov, and V.F. Stuchev: Correction of Dynamic Errors due to Imperfect Quadrature of RF Converters in Digital Receivers	53	2305
Ya.A. Fomin and A.V. Savich: Recognition of Multivariate Normal Ensembles with Different Covariance Matrices	59	2311
Yu.G. Sosulin and K.Yu. Gavrilov: Synthesis and Analysis of an Optimum Sequential Procedure for Joint Signal Search and Detection	66	2319
A.L. Il'in, M.N. Marov, and G.V. Korsunov: Correlation Characteristics of the Images of the Ground Surface Obtained by a Synthetic Aperture Radar	78	2332
V.M. Smol'yaninov and L.Ye. Nazarov: Characteristics of Spectral Analysis for the Recognition of Discrete Signals Based on Binary Codes	86	2341
A.M. Shloma and L.A. Preobrazhenskiy: An Indirect Method for the Nonlinear Filtering of Multivariate Markov Processes	91	2347
L.N. Konovalov: A Method for Calculating Maximum Likelihood Estimates of the Angular Coordinates of Harmonic Signal Sources	97	2354
A.N. Ablin, L.Ya. Mogilevskaya, and Yu.L. Khotuntsev: Investigation of the Stability of Self-Excited Oscillators Using Models with Periodically Varying Parameters	105	2364
V.S. Gvozdetskiy, A.G. Zagorodnyy, I.V. Krivtsun, and I.P. Yakimenko: Effect of Layered Dielectric Coatings on the Absorption Properties of Bounded Plasma-Like Media	112	2372
O.B. Ovsyannikova: The Effect of Electrodes on the Stability of a Tubular Relativistic Electron Beam	120	2382
S.P. Bugayev, M.P. Deychuli, V.I. Kanavets, A.I. Klimov, A.V. Korzhenevskiy, V.I. Koshelev, and V.A. Cherenenin: High-Frequency Instability and Generation of Electromagnetic Radiation by a Magnetized Electron Beam with a High Space-Charge Density	124	2386
N.L. Romashin and B.M. Paramonov: The Problem of Increasing the Efficiency of Electron-Wave Systems Under Conditions of Combination Scattering of Electromagnetic Waves by a Relativistic Electron Beam	132	2396
A.V. Luk'yanchikov and V.G. Shkol'nikov: Formation of Ultrashort Radio Pulses in a Traveling-Wave Tube with a Drift Space	140	2405
I.A. Man'kin and Yu.Kh. Finkel'shteyn: Approximate, Nonlinear, Kinetic-Equation Analysis of the Interaction of an Electron Beam with a Traveling Wave	145	2411
S.V. Kolosov, A.A. Kurayev, and A.I. Shakirin: Effect of the Quasistatic Part of the Space-Charge Field on Bunching in Gyroresonance Accelerators with Working H_{n1}-Modes	153	2420
N.A. Kurayev and A.K. Sinitsyn: Investigation of the Autophase State in a Relativistic Orotron	160	2427
V.A. Dianova, Ye.R. Mustel', and S.I. Rudnykh: Reception of Modulated Optical Radiation by Means of the Radioheterodyning Method in a Photomultiplier and the Double Modulation of Light Method	165	2434
BRIEF COMMUNICATIONS		
S.M. Avdeyev, N.A. Bey, and S.M. Mazanik: Method of Finite Elements in the Problem of Analyzing the Characteristic Waves of an Array of Rods	170	2213
G.V. Merkishin: Synthesis of the Information Parameters of an Interference Pattern for Amplitude Filtering of Spatial Harmonics	173	2216
A.D. Pluzhnikov and A.G. Ryndyk: Spatial Processing of Radar Signals in a Background of Passive Interference	177	2220
Yu.V. Bazanov and B.S. Kul'varskaya: Method of Emission Regression of Level Populations in Order to Obtain the Differential Entropy	180	2223

	English Page	Russian Page
Sh.D. Kurmashev, V.I. Andreyev, and I.M. Vikulin: Noise of a Photoreceiver Employing a Transistor with Additional Injection Amplification	182	2225
G.P. Zakharov, A.I. Stavitskiy, V.I. Stavitskiy, and Ye.Yu. Gladkov: On Some Unique Features of the Transfer Characteristics of a Polytron	185	2228
T.A. Bryantseva, V.Ye. Lyubchenko, and Ye.O. Yunevich: Effect of Thermal Ionization of Gold Vapors on the Parameters of Gallium Arsenide Schottky-Barrier Diodes, Produced by a Vacuum Deposition Method	187	2231

Number 4

A.N. Sivov and A.D. Chuprin: Synthesis of a Resonant Antenna Enclosed in a Dielectric	1	2465
Ye.A. Konyashenko: A Spectral Approach to the Analysis of the Maximum-Bandwidth Properties of Flat Radiators	6	2470
